HOLMES THRILLING SKY GARDENS!

New! Inspiring!

Do It with Orchids in Your Trees!

Plant your whole garden in the sky. It will be more beautiful because it's Orchids . . . more satisfying because it's in your natural line of vision whenever you sit and relax . . . and actually glows because the blue of the sky and the white of the clouds give it a dreamy, soothing, wondrous quality that literally permeates everything in sight.

Be one of the first to install a SKY GARDEN—the most amazing new idea in Florida gardening.

Remember, most Orchids naturally grow wild in trees in their native Amazon, Mexico, Central America. What could be more natural than to put them back into your trees here in Florida?

Every color of the rainbow to choose from—wide, exciting choices of foliage—unending sizes, shapes and types. Think of viewing your Orchids from your reclining lawn chair!

It's simple, easy. Just ask for SKY GARDEN ORCHIDS when you come out to Holmes Nursery.

Remember . . . when you buy Orchids before they bloom, they cost much less. So come out to our Nursery early and often and you'll own lots of Orchids.
